ALPHABETICAL INDEX OF NAMES,	263

THE following Catalogue of Graduates of the University of Edinburgh has been prepared in compliance with a resolution of the SENATE. It includes a chronological list of the MASTERS OF ARTS, from the year 1587, and of the DOCTORS OF DIVINITY and DOCTORS OF LAWS, from about the beginning of the last century, being the earliest notices of any such degrees having been conferred. These Lists are continued to the present time. A Catalogue of the Medical Graduates, from the year 1705, appeared as a separate volume in 1846.

The Book of Laureations, which has furnished the chief materials for the present volume, commences with the National Covenant of 1580, which long continued to be subscribed by the Professors and Students. In reference to this practice Professor Craufurd, in his History of the University, has stated, "In the end of 1587, the Nationall Covenant was subscribed in the Colledge by Mr Rollock and Mr Narne, Maisters of the same, and by Mr John Crage, the King's Minister (who had framed the draught thereof), and by Mr James Hamilton, Minister, who, during the banishment of Mr Lawson, and Mr Balcanquall, was brought in to preach in the citie. . . . An ordinance was also passed, *that all who should take degrees in the Colledge, should subscribe the same.*" The same Author informs us that,—“In August 1587, Maister Robert Rollock did laureat the first classe which had passed under his charge in the Colledge of Edinburgh, *after every one of them had subscribed the Covenant.* They were to the number of 48 [47], among whom were many able wits, namely, Mr Charles Ferme, Mr Philip

Heslope, Mr Henry Charteris, and Mr Patrick Sands, who were thereafter Regents, and the two last came to be Principals of the Colledge."¹ It will be observed, that other formulas were substituted at different periods, to which the signatures of the Graduates in Arts are continued in this Register, with some kind of regularity, until the latter part of the seventeenth century. At an early period, designations after many of the names have been added, probably by some of the Professors from their personal knowledge. These additions, which serve to identify various Students who had taken their degree, are printed in Italics.

It had been customary, from the close of the sixteenth to the commencement of the last century, previous to the day of graduation, to print the THESES, which the Candidates for the degree of Master of Arts were called upon to defend in their public disputations. The names of the Students were annexed, along with that of the Regent or Professor, under whom they had completed their course of philosophical study. Of these annually printed Theses, about seventy have been discovered and collated; and they have proved of essential service in regard to many names obscurely written in the Register, which could not otherwise have been easily deciphered. They also furnish several additional names; but for the sake of distinction these are enclosed within brackets.

In preparing the following Catalogue, other sources have also been carefully examined, such, for instance, as the Register for Matriculations, which commences in the year 1627; and likewise the various lists of contributors to the University Library. Such contributions, when not in the form of books on which the names of the respective donors were written, consisted of fees paid at the time of graduation, which formed a separate fund for the purchase of books, in the name collectively of the graduates in each particular class.

¹ History of the University of Edinburgh, from 1680 to 1646, by Thomas Craufurd, A.M. Edinb., 1808, 8vo.

In the early part of the last century, partly arising from a change in the course of study, by the appointment of separate Professorships, the practice of taking degrees in Arts fell into general disuse. After the year 1730, when the minutes of the SENATE commence, the names of Graduates were frequently there recorded instead of the Laureation Book, but in general, for nearly a century, in an imperfect manner. Every endeavour has, however, been made to render the following Catalogue as complete and accurate as the existing materials would admit.

For the purpose of rendering this volume of greater importance, there is here subjoined a list of the Principals, Regents, and Professors, in the University, since its foundation in 1583 to the present time. This, for the most part, has been prepared from a careful examination of the Records of the Town Council of Edinburgh, the Patrons of the University, as the most authentic source from which the dates of such appointments can be ascertained.

December, 1858.
